ÁREA SANITARIA IV

# DynaMed®

Acceso rápido a las evidencias en el punto de atención al paciente

<https://bibliotecahuca.com>

Responsable Biblioteca Área Sanitaria IV. HUCA  
Carolina Pinín Osorio

Un reto importante: ¿Como mantenerse actualizado?

Con las publicaciones científicas

Conociendo cuándo y dónde se producen cambios en la práctica clínica

Con las últimas *guidelines*

Con los fármacos recién incorporados al mercado y aquellos que son retirados

# BIBLIOTECA HUCA ÁREA SANITARIA IV

Problema: se publica demasiada información.

## [ The reality of clinical information overload ]

**50 Million**  
medical and scientific  
publications are available in  
public databases

One new medical or scientific  
publication occurs every  
**30 Seconds**

**7,000 Publications**  
may be yielded from PubMed  
searches for commonly  
encountered clinical problems

## [ An audit of 24-hour medical intake in an acute care hospital included: ]

**18 Patients**

**44 Diagnoses**

**3,679 pages**  
of national guidelines

**122 hours**  
of reading

**Clinicians can't  
easily navigate**  
to the nugget of  
information they need

Clinicians want to provide  
care based on the  
**best available  
evidence**

**One expert**  
can no longer  
know all

Knowledge is growing at an  
**unprecedented  
rate**

## Acceso a DynaMed desde la página de la Biblioteca <https://bibliotecahuca.com>

Hay dos opciones:

- A) Desde la pestaña “Recursos”-“Bases de datos y recursos electrónicos”-“Síntesis de evidencia”, o
- B) Desde la barra lateral

The screenshot shows the website's navigation menu and a sidebar. Path A (orange circles) starts at 'RECURSOS', goes to 'BASES DE DATOS Y RECURSOS ELECTRÓNICOS', and then to 'SÍNTESIS DE EVIDENCIA'. Path B (teal circles) starts at the sidebar 'BASES DE DATOS Y RECURSOS' and goes directly to 'DynaMed'.

### Síntesis de evidencia

**DynaMed** Es una herramienta basada en evidencia creada para que los médicos y otros profesionales de la salud la usen en el punto de atención. Los resúmenes clínicamente organizados por temas, es una herramienta que ofrece información reciente y relevante para la práctica médica. Actualmente, los editores de **DynaMed** monitorean el contenido de más de 500 revistas médicas diariamente, así como contenido de las revisiones sistemáticas

## Búsquedas: SEARCH FOR

The screenshot shows the DynaMed website interface. At the top, there is a navigation bar with links for Specialties, Recent Alerts, Drugs A-Z, Drug Interactions, Calculators, and About. A search bar is located in the center, with the text 'allergic' entered. A dropdown menu is open below the search bar, displaying a list of search results under the heading 'GO TO'. The results include: 'Allergic and Asthmatic Reactions to Food Additives', 'Allergic Bronchopulmonary Aspergillosis', 'Allergic Conjunctivitis', 'Allergic Reactions to Local Anesthetics', and 'Allergic Reactions to Vaccines'. Below the dropdown, there is a 'SEARCH FOR' section with a list of related terms: 'allergic rhinitis', 'allergic reaction', 'allergic reaction treatment', 'allergic conjunctivitis', and 'allergic rhinitis in children'. On the left side of the page, there is a purple callout box with white text that reads: 'Introduzca sus términos de búsqueda para ir al tema deseado, desde SEARCH FOR: te muestra todos los resultados que contentan esos términos.' On the right side, there is a 'Continuing Education' section with a 'Claim Credits' button and a 'CME 1.0' badge. The background of the website features a blue and white abstract design with a heart rate line.

#### Overview and Recommendations

##### Background

- Allergic rhinitis is a **common** Type I hypersensitivity response of the upper respiratory tract to seasonal and perennial aeroallergens, usually resulting in recurrent nasal congestion, rhinorrhea, sneezing, and mucosal itching of the nose, eyes, ears, and palate. It also includes asthma, atopic dermatitis and allergic conjunctivitis, nasal polyps, sinusitis, and sleep apnea.
- Presentation often includes:
  - sneezing, congestion, and rhinorrhea which may follow a seasonal pattern or be triggered by exposure to animals, dust, or other environmental factors
  - enlarged, pale or bluish boggy nasal mucosa, nasal polyps, allergic shiners (dark areas under eyes from venous congestion), and pharyngitis
- Diagnosis** is usually made clinically based on history, physical, and exposure to aeroallergens.
- Perform testing to identify specific triggers when considering immunotherapy (**Strong recommendation**), or if the diagnosis is uncertain. Testing options include **skin testing** (preferred) or **serum IgE allergen testing** (**Weak recommendation**).
- Nasal smears** for eosinophils are not routinely recommended unless ordered if the history, physical exam, and IgE studies are inconclusive.

## Certificate of Completion

05/26/2023

Baylor College of Medicine certifies that ( [Redacted] ) Other has participated in the internet point-of-care (PoC) activity learning titled the *DynaMed Point-of-Care Learning*. Each PoC searching and learning activity was designated for 0.50 *AMA PRA Category 1 Credit(s)*™.

Search Date	Title	Completion Credits
05/24/2023	Parasomnias in Children	0.5
05/24/2023	Ocrelizumab	0.5
05/24/2023	Natalizumab	0.5
05/24/2023	Mohs Micrographic Surgery	0.5
05/22/2023	Calcitonin	0.5
05/22/2023	Disease-modifying Therapies for Multiple Sclerosis	0.5
05/22/2023	Multiple Sclerosis (MS)	0.5

ACCME: This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint provider-ship of Baylor College of Medicine and DynaMed. Baylor College of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Baylor College of Medicine designates this internet point-of-care activity for a maximum of 0.50 *AMA PRA Category 1 Credit(s)*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AAFP: This Point of Care activity, DynaMed Point-of-Care Learning, has been reviewed and is acceptable for up to 20 Prescribed credit(s) by the American Academy of Family Physicians. Term of approval begins 08/01/2023. Term of approval is for one year from this date. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Michael Fordis, MD  
Senior Associate Dean and Director
