¿Qué es *Dynamic Health*?

Recurso con información completa de enfermería y salud basada en la evidencia.

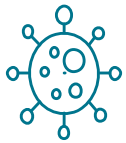

Diseñado para proporcionar información clínica aplicable en el contexto correcto del flujo de trabajo.

Enfocado en mejorar el aprendizaje, desarrollo y la toma de decisiones en el punto de atención.

¿Por qué *Dynamic Health*?

- Contenido basado en evidencia escrito por expertos: depurado, actual y conciso.
 - Utiliza *CINAHL*, *Mosby*, *Lippincott Williams & Wilkins*, *American Nursing Association*, *American Nurses Credentialing Center* y cientos de otros recursos.
- *Dynamic Health* proporciona el "tiempo de respuesta" más rápido para obtener información sobre habilidades.
- La información correcta para el pensamiento crítico y la acción.
- Imágenes, videos y contenido de medicamentos, seleccionados y creados para abordar las necesidades del personal que no dispone de mucho tiempo.

The screen displays the "DynamicHealth™" logo at the top. Below it, a message states: "Access to Dynamic Health requires an active subscription. Please authenticate using one of the options below." There are two icons: a Wi-Fi symbol labeled "Institutional Network" and a person icon labeled "Sign In". At the bottom, a message says "Sign In with your username and password." with a "Sign In" button.

Es necesario tener la cuenta creada.

The screen shows the "login.ebsco.zone" URL. It prompts the user to "Sign in to your Personal Account". There are input fields for "Email Address" and "Password", followed by a "Sign In" button. Below this, there is a section for "Sign in via an organization/group:" with a dropdown menu showing "Elliot Health System" and a "GO" button. At the bottom, it says "Or via the following: OpenAthens".

Introducir las credenciales personales de acceso

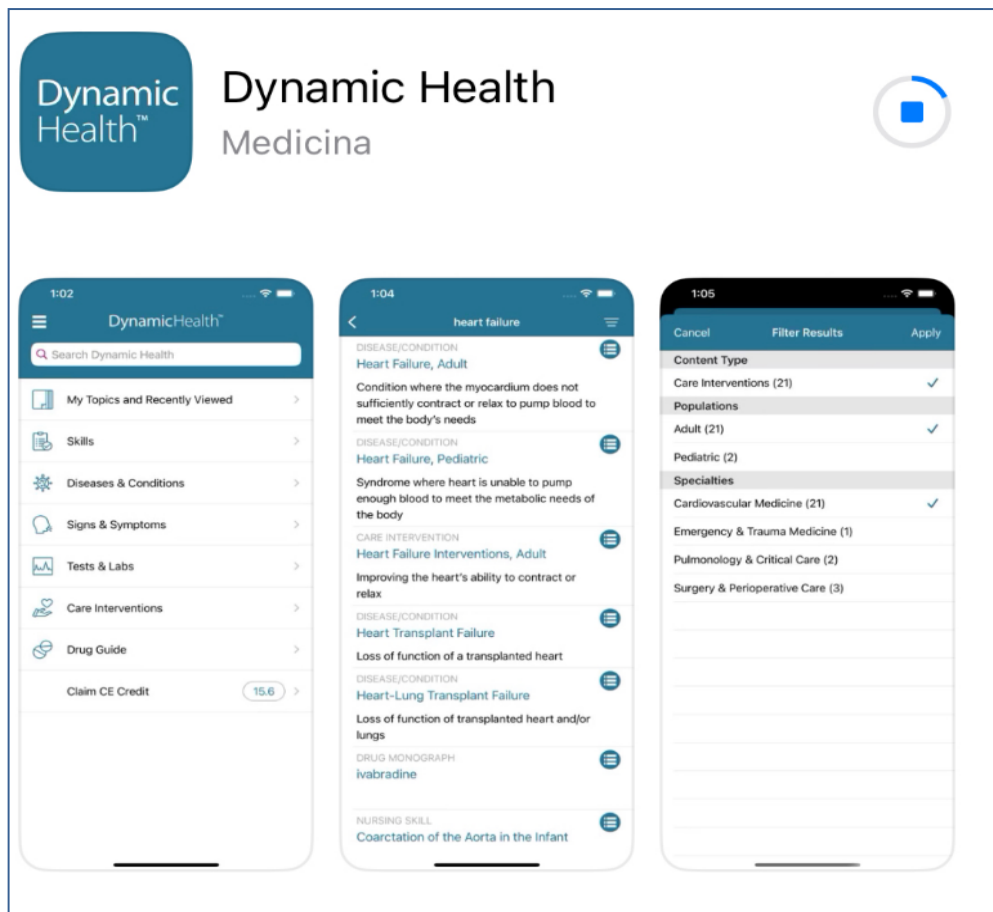

The screen displays the "DynamicHealth™" logo and asks the user to "Choose an installation option". It notes that the option can be changed in user settings at any time. Two options are listed: "Partial Install" (182,1 MB) which stores text and thumbnails on the device, and "Full Install" (319,3 MB) which stores all content on the device. A "Continue" button is at the bottom.

La opción Full Install permite tener acceso a todo el contenido, sin estar conectado a Internet.

PATIENT INSTRUCTION SKILL

Educating About Chronic Obstructive Pulmonary Disease (COPD)

CONTENT

Purpose

Chronic obstructive pulmonary disease (COPD) is a debilitating and potentially life-threatening disease state that is defined in the 2020 consensus report by the Global Initiative for Chronic Obstructive Lung Disease (GOLD; referred to as the GOLD report) as “characterized by persistent respiratory symptoms and airflow limitation that is due to airway and/or alveolar abnormalities usually caused by significant exposure to noxious particles or gases.” Patient education increases patient knowledge and self-care skills related to COPD, promotes relief of signs and symptoms of COPD, improves QOL, and enhances patient ability to cope with the challenges of living with this debilitating, potentially life-threatening disease.

Red Flags

- Note that use of family members as interpreters can be a violation of the patient's right to privacy of healthcare information.¹
